DIARY NOTES

DD/S *W*

3 March 1965

1. At the Executive Committee Meeting this morning there was a discussion about whether recipients of National Intelligence Estimates have the authority to make further dissemination of either the NIE or parts thereof. I understand that no current law, rule, or regulation places any limitation upon what a recipient of an NIE may do with the information. General Carter asked Ray Cline to pursue this and indicated that he thought he might raise the subject at a USIB meeting. While this question involves policy as well as security, it is very closely related to the problem which was raised earlier by Sherman Kent and more recently by [REDACTED] about the rather wide dissemination of sensitive intelligence information. (This question might become of interest to the USIB Security Committee.)

2. [REDACTED] talked with me about transportation for Office of Communications people at some of our overseas stations. (I asked [REDACTED] to study this problem.)

25X1A9a

3. John Clarke talked with me about working directly with the Office of Communications in the development of some graphics to justify our expenditures. I gather that he has in mind a chart similar to the one the Office of Communications produced for me a year or so ago in support of our research and development program which demonstrated the improvement in size, weight, speed of transmission, etc., of agent equipment resulting from our research and development program. I encouraged him to work with the Office of Communications on any such area he thought would be helpful.

4. Bob Fuchs, [REDACTED] and I reviewed the delinquent accounts of former Agency employees. They seemed to be in reasonably good shape with one exception. In fact, \$26,000 of the total \$30,000 is owed by one man named [REDACTED] (I asked Bob to prepare a memorandum for Mr. Kirkpatrick on the [REDACTED] account since Kirk originally handled this case.)

5. I talked with John Tietjen and [REDACTED] about [REDACTED] and agreed that [REDACTED] should make a quick trip to San Antonio, Texas, primarily for representation to the family and the hospital rather than for

6. [REDACTED] was in to discuss the following items:

25X1A9a

a. [REDACTED] talked with me about an assignment for [REDACTED] when he returns from the National War College this summer. He can, of course, use Dick in the Office of Communications as a special assistant but thought that some other assignment, such as a tour of duty on my staff or the Inspector General's staff, might be beneficial to his career. If such an assignment should be arranged, [REDACTED] would want to be able to get him back on fairly short notice.

[REDACTED]

7. Howard Osborn was in to brief me on several cases:

a. He reported that he talked with [REDACTED] who accepted the Agency's decision very well. Howard told him that we expect him to have his future worked out and to be embarked upon his separation not later than 1 May.
